NUMPAD AND FUNCTION KEYBOARD

This numpad and function keyboard features 36 short-travel switches with tactile feedback, combining numeric, function, and control keys with a compact 25mm trackball. Its condensed yet well-organized layout, together with the integrated trackball, ensures quick and comfortable access to essential machine commands and precise cursor control.

Typical applications include navigation systems, general machine control, public access terminals, security systems, and other environments where a limited number of key functions are required, with a focus on ease of use, speed, and comfort.

MAIN FEATURES

- Sealing to IP65
